

AISEP ENDORSEMENT STATEMENT
Network Device collaborative Protection Profile
Version 1.0, dated 26 January 2015

1. The Australasian Certification Authority (ACA) formally endorses the *Network Device (ND) collaborative Protection Profile (cPP) Version 1.0, dated 26 January 2015*.
2. The ACA recognizes a need for evaluated devices that are suitable for the use cases identified in the ND cPP. The ACA believes that the ND cPP meets the intent of the ESR and considers the Security Problem Definition and resulting Security Functional Requirements appropriate for the intended use cases.
3. The ACA reserves the right to revisit its position at any stage throughout the lifecycle of the Network Device collaborative Protection Profile (cPP).
